

New York - Reading Report Card (by District)

Year: 2019

County: Suffolk

Cohort: Grade:3, Students With Disabilities

References, Notes:

- Why use 3rd-grade reading data?
 - 3rd-grade reading proficiency is the single most important indicator of a student's educational progress and the likelihood of academic success. Children who have not mastered reading by that point are educationally disadvantaged for a lifetime. Without remediation, they are unlikely to optimally benefit from their education or become all they could be in life.
- # of Students tested is in (). Districts that fail to submit data epitomize the need for literacy laws and are listed below.
